

FOUNDING ENGINEER · PRACTICAL TASK

Prompt History

Every prompt I gave Claude Code for this task, in order

Prepared by	Ahmed Alawi Radhi
Date	24 October 2026
Tool	Claude Code (with Playwright, Vitest, GitHub Actions, Telegram, and Gemini for the logo concept)
Covers	Item 2: the practice-portfolio app (practice-portfolio.7mxd.me)

Prompts are quoted exactly as I typed them. Where I attached screenshots or screen recordings, the card says so.

20	Portfolio mix bar	Holdings, UX and motion
21	Dark mode?	Finishing
22	Finish up	Finishing
23	Log on Telegram	Finishing
24	Log as PDF	Finishing
25	PDF in the repo	Finishing

PHASE

Build and deploy

Prompt 1 BUILD AND DEPLOY

The brief

PROMPT

With a screenshot of the full task page ("Ship a small app with Claude Code").

SouqView sent the practical task. I attached the whole page. Use all installed plugins/skills as needed, and start building per requirements. Note that prompt history will start from here.

Prompt 2 BUILD AND DEPLOY

Feedback on the first version

PROMPT

- For the things that went wrong. Go with the recommended options.

- For the link: I will put it instead as a sub-domain on 7mxd.me

- For the screen-recording, when submitting the link of the app, I will send an email to Mohammed confirming that, and telling that the careers website doesn't ask for a video, but if it is still required, let me know.

- For the design of the website, do we go with our design or something that follows the design of SouqView?

Prompt 3 BUILD AND DEPLOY

DNS record added

PROMPT

With a screenshot of the Cloudflare DNS record: CNAME practice-portfolio → 7mxd.github.io, DNS only.

Done.

PHASE

Choosing a stock and the buy price

Prompt 4 CHOOSING A STOCK AND THE BUY PRICE

Symbol list and automatic price

PROMPT

The app is still very simple.

- Instead of writing the symbol manually or selecting one of 5 available symbols, I want to do the following: by using the required api, a list of all symbols will be there and the pay per share will be filled automatically.

Prompt 5 CHOOSING A STOCK AND THE BUY PRICE

Questions about scope

PROMPT

I am trying to give a full user experience even if it is for testing purposes. What would you say?

Prompt 6 CHOOSING A STOCK AND THE BUY PRICE

The 4-hour limit

PROMPT

What does he mean by "4-hour limit"?

Prompt 7 CHOOSING A STOCK AND THE BUY PRICE

Decision

PROMPT

Okay. I would go with guidance given by the brief and "What to build".

Prompt 8 CHOOSING A STOCK AND THE BUY PRICE

Layout feedback from my phone

PROMPT

With three iPhone screenshots of the live app.

1. Isn't "Your trades" almost repetitive with "Holdings"? We can move "Remove" and "Clear all" to the Holdings card.

2. I would suggest moving the "Everything is shown in AED …" point to the footer, and making the footer a bit more organized.

- Ensure that my points doesn't go against the requirements.

Prompt 9 CHOOSING A STOCK AND THE BUY PRICE

Drop-down with logos

PROMPT

- Can we have a drop list instead?

- Also, a company logo beside each corresponding stock?

Prompt 10 CHOOSING A STOCK AND THE BUY PRICE

Questions about the holdings numbers

PROMPT

With an iPhone screenshot of a FAB holding, the "%" labels circled.

- The percentage is going on the next line.

- What is the meaning of "0.00%"?

- Is it expected that Gain or Loss will always be 0?

Prompt 11 CHOOSING A STOCK AND THE BUY PRICE

Choice on the buy price

PROMPT

Answer to Claude's question on how the buy price should work.

Go with the approach that gives the best UX and UI, while respecting the required rules.

PHASE

App logo

Prompt 12 APP LOGO

App logo?

PROMPT

Do you suggest having a logo or something, or not recommended?

Prompt 13 APP LOGO

A logo prompt for Gemini

PROMPT

Yes, and if needed, you can me a prompt that I can give to Gemini to produce a logo.

Prompt 14 APP LOGO

Gemini's logo options

PROMPT

With an image of four logo options generated by Gemini from Claude's prompt.

Those were given by Gemini

Prompt 15

APP LOGO

Choosing the logo

PROMPT

Bars look good

PHASE

Holdings, UX and motion

Prompt 16

HOLDINGS, UX AND MOTION

Seeing each trade

PROMPT

With an iPhone screenshot of Holdings, including ADNOCGAS "over 2 trades".

If we have 2 trades, then we should be able to view each alone (or together), shouldn't we?

Prompt 17

HOLDINGS, UX AND MOTION

Best UI and UX

PROMPT

Sent while Claude was working on prompt 16.

Ensure best UI & UX are provided.

Prompt 18

HOLDINGS, UX AND MOTION

README check

PROMPT

The README is now consistent with the changes?

Prompt 19

HOLDINGS, UX AND MOTION

Motion

PROMPT

Can we add some motion without affecting the user experience negatively? Instead we want to enhance the UI to be more good-looking and attractive.

Prompt 20

HOLDINGS, UX AND MOTION

Portfolio mix bar

PROMPT

Answer to Claude's optional idea: a bar showing each holding's share of the portfolio.

Go ahead with the optional idea!

PHASE

Finishing

Prompt 21

FINISHING

Dark mode?

PROMPT

Do you suggest adding dark mode button?

Prompt 22

FINISHING

Finish up

PROMPT

Yes, go ahead:

- Ensure the README is up-to-date.

- Add few "What I would do next" including dark mode, Arabic language, ...

- When done, let me know and draft the email.

Prompt 23

FINISHING

Log on Telegram

PROMPT

Send me the log on telegram.

Prompt 24

FINISHING

Log as PDF

PROMPT

Yes, pdf.

Prompt 25

FINISHING

PDF in the repo

PROMPT

When done at it to the repo too. Update the readme if needed, and give me updated "What's left for you".
